Grant rights to Parents/Guardian

At the post-secondary level, according to the Family Educational Rights and Privacy Act of 1974 (FERPA) and college policy, no inherent rights are given to parents to inspect your education records. Education records can be released to your parents with your written consent, OR by submission of evidence you are declared as a dependent on their most recent Federal Income Tax return.

This web form gives you the opportunity to give written consent to allow your parents access to your education records, without submitting parental tax forms.

By clicking the box next to each person, under the Grant column below, you agree that College personnel may provide financial related information and/or academic related information from your educational record, beyond that considered directory information.

A notation of this approval will be entered on the Student Information System. It will remain on your record and allow us to release information to your parents, even when you are no longer listed as a dependent on your parents income tax return, or you have graduated or left the College, unless you revoke this permission.

If you do not see any parent/guardian/other information displayed, please use the following link to [Add/Update Parent/Guardian/Other](#) individuals. A request will be sent to the appropriate personnel for processing.
