

Dance Department Shared Values Statement

As a dance department in a liberal arts college, our curriculum centers diverse, equitable, and inclusive dance practices.

MMC dancers train daily in a diversity of dance forms and creative processes, grounded in critical inquiry and artistic exploration.

As a community of dancers, we value experiences that promote curiosity, collaboration, embodied research, and civic engagement.

As a department we will listen to, center, and uplift the identities and experiences of those that exist at the margins.

We offer an education that uplifts and empowers students to succeed in a wide range of careers in an evolving field.
